

**RUST-OLEUM®**

## 2300 SYSTEM INVERTED STRIPING PAINT

### DESCRIPTION AND USES

High Performance Inverted Striping Paint is a lead-free aerosol paint that features weather and abrasion resistance for durability. When used with one of the Rust-Oleum Striping Machines, these coatings are ideal for striping parking lots and warehouse aisles. They dry fast and adhere to concrete, pavement, gravel, grass and more.

### PRODUCTS

2364838	Red
2326838	Blue
2378838	Black
2348838	Yellow
2391838	White

### PACKAGING

20 fl. oz. container, 18 oz. fill wt., 6 aerosols packed to a carton

### PRODUCT APPLICATION

#### SURFACE PREPARATION

**ALL SURFACES:** Remove loose debris and contaminants by sweeping the surface before application of the coating. Grease, oil and chemical contaminants are best removed by washing the surface with Pure Strength® Cleaner/Degreaser, item #3599402, commercial detergent, or other suitable cleaner. Rinse thoroughly with clean fresh water and allow to fully dry.

#### APPLICATION

Use when temperature is above 32°F (0°C) and humidity is below 85% to ensure proper drying. Protect surrounding surfaces from overspray. Overspray can carry a significant distance. The Inverted Striping sprays are designed for use with Rust-Oleum Striping Machine item #2395000. Follow machine directions for proper use. The width of the stripe can be varied from 2-4 inches wide by adjusting the position of the can holder on the Striping Machine. For best results be sure the Striping Machine is in motion before squeezing the trigger and release the trigger before stopping. If clogging occurs, carefully remove spray tip and clean in thinner. **DO NOT** insert any object into can valve opening. Use care when replacing the spray tip. The inverted striping aerosols can also be used with the #2388000 Striping Wand. Properly discard empty container. Do not burn or place in trash compactor. Empty container can be recycled.
